

MARSHFIELD Utilities

Marshfield Utilities offers free in-home energy audits!

Marshfield Utilities has added Home Energy Audits to its services. These audits valued at \$200 dollars are FREE to Marshfield Utility Residential Customers only.

A conservation specialist conducts a 1-2 hour walkthrough of the home and provides a customized report detailing areas throughout the home where improvements will realize energy savings.

In addition, our conservation specialist will include information regarding programs and incentives available through Focus on Energy.

The Home Energy Tune-Up Audit provides detailed information on costs of improvements and realized energy savings for the customer, based on our current rate schedule.

Eligibility: All residential Marshfield Utility customers are eligible to participate in this program.
